## **FOR IMMEDIATE RELEASE**

### **FREE ALL<sup>®</sup> FIGHTS RUST AND CORROSION WITH INDUSTRIAL-STRENGTH RUST-BREAKING POWER**

#### ***Fast-Acting Penetrating Oil Cuts Through Corrosion Without Time-Consuming Torching, Chiseling or Wrenching***

CLEVELAND – Rusty, frozen parts and fasteners are no match for the fast-acting power of Free All<sup>®</sup> Deep Penetrating Oil, available only from Gasoila Chemicals, a specialty chemical division of Federal Process Corporation.

Free All's exclusive formula quickly and easily penetrates the rust and corrosion found in many industrial and manufacturing environments, reducing the need for laborious, time-consuming torching, wrenching or chiseling. The formula contains a special rust-eating agent that is ideal in industrial and plumbing applications. Free All is free of harmful silicones, making it safe for use around painted surfaces.

“When it comes to freeing frozen, rusted parts, there's no match for Free All,” said Dave Johnson, National Sales Manager for Gasoila Chemicals. “Its fast-acting, powerful formula makes it a must-have for maintenance technicians, contractors and plant managers.”

Free All is offered in several convenient sizes, including 12- and 6-ounce spray cans and 1/2-ounce single-use cans.

Free samples of Free All Deep Penetrating Oil are available for industrial technicians. To request a sample, please call (800) 846-7325.

For additional product information, to place an order or to receive a free Gasoila product catalog, please call (800) 846-7325 or visit [www.gasoila.com](http://www.gasoila.com).

Gasoil Chemicals, a Federal Process Company, offers a diverse line of quality products for the petroleum, plumbing, LP Gas, HVAC, automotive and general industrial markets. From industrial thread sealants and cutting oils to gas gauging pastes and industrial cleaning chemicals, Gasoil has long been the professional's choice for tough, reliable chemical products that get the job done.
