FOR IMMEDIATE RELEASE

REMOVE CORRODED PARTS FASTER AND EASIER WITH REVOLUTIONARY FREE ALL® RUST-EATING PENETRANT

***Now Available for Track Use;
New Penetrating Oil Clearly Outperforms Other Rust Penetrants***

CLEVELAND, OH, April 28, 2005 – Automotive enthusiasts and team mechanics can now rely on a rust-eating penetrant that makes it significantly faster to free corroded fasteners and other parts.

New Free All® Deep Penetrating Oil, now available through selected auto parts stores, features a patented, silicone-free formula that quickly and easily dissolves rust and corrosion, thereby removing the need for torching, drilling or hammering and chiseling to free virtually any frozen fastener or part. And unlike competing formulas, Free All won't damage painted surfaces.

"Free All is a tool that belongs in every team's toolbox, at the track and garage," said Marc Spector, automotive products manager for Federal Process Corporation. "From corroded automotive fasteners to any frozen part in or around the vehicle, Free All gets the job done faster and easier."

Free All is offered in several convenient sizes, including 12-, 6- and 2-ounce spray cans and 1/2-ounce single-use bottles.

For additional information on Free All and other leading DIY products from Federal-Process Corporation, please visit www.FreeAllOil.com, or call 800-660-6140.

Free All Deep Penetrating Oil is manufactured and marketed by Federal Process Corporation, Cleveland, Ohio. Since 1915, Federal Process has leveraged its chemical expertise and experience within key markets to help enhance user productivity.
