Free stuff while it lasts ...

Achieve Definitive Accuracy

Sharpe's new Digi-tell™ air valve ensures on-target air delivery to +/- 0.5 psi. Weighing in at just 150 grams, the Digi-tell is the lightest digital air valve in the industry. With a long battery life of 4 years and operating pressure up to 100 psi, it's capable of fitting most spray guns around the world. It also has an attractive, gun washer safe, highly polished body.

THE GIVEAWAY: The first 50 *BodyShop*

Product Extra readers who visit www.sharpe1.com/upforgrabs and complete the form will be sent a **FREE** Digi-tell air valve.

VALUE: \$79.99

Free Corroded Parts Faster

The new Free All Deep Penetrating Oil from Federal Process Corp. makes it faster to free corroded fasteners and other parts. This silicone-free penetrant features a patented formula that quickly and easily dissolves rust and corrosion, eliminating the need for torching, drilling or hammering and chiseling. It frees virtually any frozen fastener or part and won't damage painted surfaces. To use, spray Free All onto the frozen, corroded or rusted area, and allow a few seconds of deep penetration. For difficult parts, repeat application and wait several minutes for penetration.

THE GIVEAWAY: The first 300 people to respond will receive a **FREE** sample of Free All Deep Penetrating Oil. Call (800) 660-6140.

VALUE: \$5.89

Have a collision repair-related freebie that you'd like to give away to a few of our lucky readers? Contact managing editor Jason Stahl at jstahl@babcox.com for details.

Which inverter spot welder should you buy for your shop? **NONE!!**

ARC's patented DC Technology is **BETTER** than inverter technology!

Come and see for yourself and you will agree. **NACE Booth #W3973**
