## Oil Eater introduces professional brake washer

Kafko International has introduced a brake washer that allows a shop to clean brake parts without using electricity. The air powered Oil Eater Professional Brake Washer includes a cover that also functions as a catch basin. It is designed for use on alignment lift/ramp lifts or on the floor and can also be used as a portable parts washer. A one-gallon bottle of Oil Eater cleaner/degreaser is included. Oil Eater is non-toxic, non-corrosive, non-flammable and biodegradable. The brake washer is made of industrial grade HDPE plastic. Features include: a heavy-duty air pump with adjustable regulator; flow through brush with adjustable solution valve; dual filtration systems and four swivel casters, two of which lock. Fluid capacity ranges from a minimum level of eight-gallons to a maximum level of 12-gallons. The basin is 20-inches wide by 24-inches long and 7-inches deep.

## Federal Process releases rust penetrant

Free All Deep Penetrating Oil from Federal Process Corp., utilizing an exclusive formula that speeds repair time by freeing rusty, frozen parts faster, is now available in a "Bullet" style can. The Free All Deep Penetrating Oil 12-ounce Bullet can features an improved, solid grip which prevents slippage and includes a special straw-style applicator. Free All utilizes a formula that quickly dissolves rust and corrosion and prevents the need for torching, drilling, hammering and chiseling to free virtually any frozen fastener or part. Free All is also silicone free, making it ideal for any bodyshop or service bay environment.

## Philips lights up with EcoVision headlamp bulb

Philips Automotive Lighting North America, a division of Royal Philips Electronics, has launched its EcoVision line of fuel-saving halogen headlight bulbs. Philips EcoVision's technology enables drivers to replace standard bulbs with ones that consume up to 20 per cent less power. EcoVision's bulb design uses a high-performance filament and a proprietary gas composition that together can help to increase MPG by consuming less power. By switching to EcoVision, drivers can save up to four gallons of fuel over the life of the bulbs. Philips EcoVision bulbs are DOT compliant. Based on Philips' recommendation to always replace bulbs in pairs, EcoVision headlamp bulbs are offered in a two-bulb package.
