

Fuel line repair kit

The **Dorman**® OE Solutions™ Quick Disconnect STEEL Fuel Line Repair Kit (no. 800-500) is designed to save the time and expense of complete fuel line assembly replacement by giving users the ability to repair the damaged section or sending unit line. The kit includes over 150 pieces, satisfies both import and domestic fuel lines and contains newly designed nylon to steel brass adapters that allow a safe/professional repair when connecting nylon to steel lines, the company states.
